

How Cedefop visitors can connect to Cedefop's Wi-Fi

Cedefop visitors can use Cedefop's Wi-Fi to access the Internet and email.

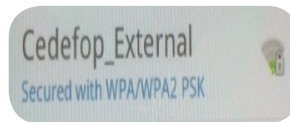

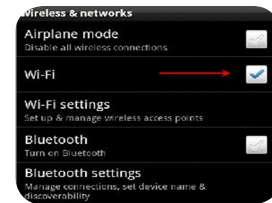

How to connect from a tablet or laptop:

1. Double click on the wireless icon in your status bar
2. Click view Wireless networks
3. Highlight Cedefop_External
4. Click connect

How to connect from a mobile phone:

1. Go to settings
2. Turn on Wi-Fi
3. Highlight Cedefop_External

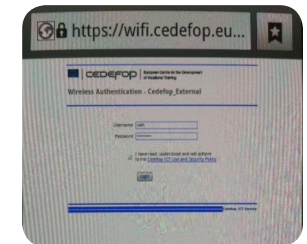

Once you have selected Cedefop's wireless network, a pop-up window will appear asking you for your password. Enter 'guests.4050'.

Next launch your Internet browser and a second pop-up window will appear asking you for your username and password.

Username:
Password:

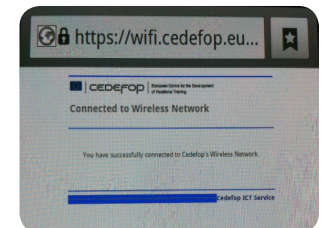

After entering your username and password, click the button agreeing to Cedefop's ICT Use and Security Policy and click on Log-in.

Now you are connected! You can close the popup window, it does not affect your connection.

Cedefop's proxy system monitors internet traffic.

If you have any questions, please call Cedefop's ICT helpdesk on internal line: 119, or ask your meeting assistant.
