5. **Submission of a tender implies acceptance of all the terms and conditions set out in this Invitation to Tender, in the specifications and in the draft contract and**, where appropriate, waiver of the tenderer's own general or specific terms and conditions. 7. Contacts between the contracting authority (Cedefop) and tenderers are prohibited throughout the procedure save in exceptional circumstances and under the following conditions only:

#### 7.1 Contacts before the final date for submission of tenders:

- An **optional** on-site visit is planned to take place on **the date and time specified in the timetable in point 8 below**. The meeting point will be the reception hall of Cedefop. Tenderers must send written notification of the names of the persons (maximum 2) who will attend the on-site visit by fax (+30 2310 49 00 28) or by e-mail ([c4t-services@cedefop.europa.eu](mailto:c4t-services@cedefop.europa.eu)), at the latest by 14:00 (local time) on the day before the site visit. All the costs of attending this meeting are borne by the tenderers. Minutes (if required) of the on-site visit will be published on Cedefop's website.
- At the request of the tenderer, the Cedefop Procurement Service may provide additional information solely for the purpose of clarifying the tender documents. Any request for additional information must be made in writing by e-mail ([C4T-services@cedefop.europa.eu](mailto:C4T-services@cedefop.europa.eu)) or by fax (fax No +30 2310 490 028).

**Requests for additional information/clarification (if any) from potential tenderers should preferably be written in English and should be received by the date and time as specified in the timetable in point 8 below. No such requests will be processed after that date.**

- Cedefop may, on its own initiative, inform interested parties of any error, inaccuracy, omission or any other clerical error in the text of the call for tenders.

The Answers/Clarifications of Cedefop to the requests for additional information/clarification of the tenderers, including that referred to above, will be published on Cedefop's website under the same link where this Open Tender Procedure is announced (<http://www.cedefop.europa.eu/en/about-cedefop/public-procurement>.) **Tenderers must ensure that they visit regularly the site for updates up to the closing date for receipt of tenders.**

## 7.2 Contacts after the final date for submission of tenders and before opening:

- Tenderers should not contact the Contracting Authority (i.e. Cedefop) on their own initiative.
- Tenderers are not allowed to amend their offers, e.g. by completing the documents they sent, replacing them with amended ones or sending new documents initially not included in the tender, as this may lead to rejection of the tender at a later stage. Any such need for additional information/document identified by the Evaluation Committee during the evaluation process will be notified to the tenderer concerned at Cedefop's initiative, providing for a reasonable deadline for response (see also the provisions under the heading below).

## 7.3 Contacts after the opening of tenders:

- Tenderers should not contact Cedefop on their own initiative at that stage.
- If clarification on the compliance with the Eligibility and/or Selection Criteria is required or if obvious clerical errors in the tender need to be corrected Cedefop may contact tenderer/s in writing to obtain further clarification or documents on specific points of the tender or to correct obvious clerical errors.
- If the necessary information and/or supporting documents for the assessment of an award criterion are missing, these may not be requested as clarification if this might alter the proposal. Any requests for clarification in that regard should not lead to amendment of the terms of the tender. Tenderers must not modify their tender or add any new elements to it. The reply must therefore make clear reference to the relevant information already present in the file. This will serve solely the purpose to provide the Evaluation Committee with a clarification regarding the technical proposal provided the terms of the tender are not modified as a result.
- In regards to possible clarifications on obvious clerical errors in the Financial Offer, tenderers must not add any new prices, but only explain the quotation on the basis of elements and prices already present in the offer. In case a tenderer alters his financial offer during a clarification (beyond the correction of any obvious clerical/calculation errors), this offer will be automatically rejected.
- Tenderers should be prepared to reply to such requests for clarification within a short reasonable deadline as it will be stated in the request for clarification.

## Introduction to Cedefop: Europe's agency for training policy

Source: <http://www.cedefop.europa.eu/EN/about-cedefop.aspx>

To provide people with the skills they need, vocational education and training systems (VET) need to adapt quickly to changing demands. European VET policy's central aim is to promote excellence through VET. To make it both an attractive learning option for the brightest and best young people and adults and an effective way of helping those with low levels of qualification to develop their skills.

Cedefop (the European Centre for the Development of Vocational Training), founded in 1975 and based in Greece since 1995, is a European Union (EU) agency. It supports the European Commission, Member States <sup>(1)</sup> and social partners by helping design VET policies that promote excellence and social inclusion and strengthen European cooperation in VET.

### Cedefop's objective and priorities for 2012-16

Cedefop's activities are guided by its strategic objective and medium-term priorities 2012-16. Cedefop's strategic objective is to contribute to designing and implementing policies for an attractive VET that promotes excellence and social inclusion and to strengthening European cooperation in developing, implementing and analysing European VET policy. This objective is supported by three priorities:

- **Supporting modernisation of VET systems**

Modern VET systems must be relevant to individual and labour market needs. They should take into account learning acquired in different ways (for example through work experience) and at different times and allow people to move between countries and sectors.

Member States decide national VET policies and Cedefop monitors and reports on the reforms and changes they make to their systems. Cedefop also works to improve international VET statistics.

European cooperation in VET, led by the European Commission working with Member States and social partners, has agreed shared objectives. As part of this cooperation, Cedefop has helped develop, and is now working to implement, common European tools and principles, which aim to make it both easier to work and study abroad and move between different parts of a national education and training system (for example between general and vocational education).

- **Careers and transitions – Continuing VET, adult and work-based learning**

Today, people are likely to change jobs more often. Cedefop is looking at how continuing training and work-based learning for adults can help people to manage their careers better and improve their job prospects. Cedefop is also examining how work-based learning for adults can help enterprises to deal with technological change, generate innovation and increase competitiveness. New demands are also being made of VET teachers and trainers and Cedefop is looking at their changing roles and their skill and learning needs.

---

<sup>(1)</sup> ) Cedefop also works with Iceland and Norway.

- **Analysing skills needs to inform VET provision**

Europe's growth and competitiveness will be held back if people's skills do not meet job requirements. Unemployment currently coexists with skill shortages. Understanding and anticipating the skills required helps ensuring that training meets labour market needs. It helps to promote a better match between individuals' potential and job requirements.

Cedefop's skill needs analysis provides insights into the trends that influence skill supply and demand and the imbalances that may arise both in the EU and individual Member States. Cedefop is also finding out more about sectoral and occupational developments, such as the demand for 'green' skills for sustainable growth and, as the population ages, the potential for jobs creation and impact of skill needs of the 'silver' economy.

### **Cedefop's information**

Cedefop shares its expertise through its publications, networks, conferences, seminars and web portal [www.cedefop.europa.eu](http://www.cedefop.europa.eu). The web portal provides news on Cedefop's major themes "Identifying skills needs", "Understanding qualifications", "Analysing policy" and "Developing lifelong learning". All Cedefop publications are available for download. Cedefop hosts and organises conferences and events throughout the year.

In addition to its web portal [www.cedefop.europa.eu](http://www.cedefop.europa.eu), Cedefop's work can be followed on Facebook at [www.facebook.com/cedefop](http://www.facebook.com/cedefop) and Twitter at [www.twitter.com/cedefop](http://www.twitter.com/cedefop).

### 3. SPECIFIC INFORMATION CONCERNING PARTICIPATION TO THIS TENDER PROCEDURE

Participation to this tender procedure is only open to tenderers who are in a position to subscribe in full to the “**Declaration on honour on exclusion criteria and selection criteria**” given in Annex C. All tenderers, all group (consortium) members (if any) and any subcontractor/s (identified as per the two bullet-points in the fourth paragraph of point 4.2 below) **MUST** provide the declaration on honour found in Annex C duly signed and dated.

#### 3.1. Exclusion Criteria

The exclusion criteria will be assessed in relation to each company individually. In the event of recommendation for contract award, evidence will be requested as described in Annex C (last page).

#### 3.2. Selection criteria

The selection criteria concern the tenderer's capacity to execute similar contracts.

The tenderers **must** submit documentary evidence (or statements, where required) of their economic, financial, technical and professional capacity to perform this contract.

Each and all requirements for economic and financial capacity should be fulfilled by the tenderer - alone (in the case of single tenderers) or as a whole (in case the tenderer is a grouping/consortium). Participation in tendering is open to all legal persons bidding either individually or in a grouping (consortium) of tenderers.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which he has with them. He must in that case prove to the contracting authority that he will have at his disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place their resources at his disposal. This obligation may be fulfilled by presenting signed statements from those entities. Please note that natural persons (individuals, freelancers) are also considered ‘entities’ for this purpose.

##### 3.2.1 Economic and Financial capacity

The tenderer must be in a stable financial position and have the economic and financial capacity to perform the contract.

##### Requirement:

- The average annual turnover of the tenderer for the last three financial years concerning the type of services covered in this call for tenders should be at least **300,000 €**.

Proof of economic and financial capacity **must** be furnished by the following documents:

- Signed Statement (Please fill-in and sign your Statement in Questionnaire 2 of Annex G) of the tenderer's turnover for the last three financial years concerning the type of services similar in nature to those making the subject of this call for tenders.

In case of a consortium (grouping) or subcontracting each member of the consortium and all subcontractors (in line with points 4.1 or 4.2 below) must provide the required statement for the economic and financial capacity, **but the assessment of whether the minimum requirement is met will bear on the consortium as a whole or the tenderer together with his subcontractors.**

In the event of recommendation for contract award the winning tenderer (single tenderer or in the case of a consortium (grouping) each member of the consortium) will be requested to prove the above by submitting Audited Financial Statements (Audited Profit and Loss Account/ Statement or equivalent) if these are foreseen by the respective national legislation. Should total subcontracting exceed 40% of the work by value, Cedefop reserves the right to request audited financial statements also from the subcontractors. For tenderers or sub-contractors (identified as per any of the two bullet-points in paragraph 5 of Art. 4.2 below) who are natural persons / freelancers, a tax declaration and tax clearance statement for the last three financial years will be requested.

If, for some exceptional reason the winning tenderer (or any consortium member or sub-contractor) is unable to provide one or other of the above documents, he or she will be required to justify the non-provision and may prove his economic and financial capacity by any other document which Cedefop considers appropriate. Cedefop reserves the right to request any other document enabling it to verify the tenderer's economic and financial capacity.

In case of consortium or subcontracting, the consortium or the tenderer with all subcontractors together have to provide evidence of technical and professional capacity as a whole (please see also 4.1 and/or 4.2 below).

### 3.3. Legal Position

Tenderers may choose between submitting a joint offer (see 4.1) as a Consortium / Grouping or introducing a bid as a single tenderer, in both cases with the possibility of having one or several subcontractors (see 4.2). Whichever type of bid is chosen, the tender must stipulate the legal status and role of each legal entity in the tender proposed (see also 5<sup>th</sup> bullet of point 4.1. below). To identify himself (and any other participating entities, if applicable), the tenderer must complete **Questionnaire 1 in Annex G**. Tenderers are also requested to complete a **Legal Entity Form** found in **Annex D**, accompanied by all documents and information indicated in the form.

The Legal Entity Form should be completed and signed by the representative(s) of the tenderer (who sign(s) the cover letter as per point 4 of the Invitation to tender) authorised to sign contracts with third parties.

The Legal Entity Form should not be submitted by sub-contractors (if any).

#### 4. ADDITIONAL INFORMATION CONCERNING PARTICIPATION TO THIS TENDER PROCEDURE

Participation in Cedefop tendering procedures is open on equal terms to all natural and legal persons or groupings of such persons (consortia) falling within the scope of the Treaties. It includes all economic operators registered in the EU and all EU citizens. Pursuant to Article 119 of the general Financial Regulation the participation is also open to all natural and legal persons from non-EU countries that have a ratified agreement with the European Union in the field of public procurement on the conditions laid down in that agreement. Cedefop can therefore accept offers from and sign contracts with tenderers from 36 countries, namely: the 28 EU Member States, 3 EEA Countries (Liechtenstein, Norway, Iceland) and 5 SAA Countries (FYROM, Albania, Serbia, Montenegro and Bosnia and Herzegovina).

The procurement (tender) procedures of Cedefop are **not** open to tenderers from GPA countries.

A legal person can take part (as an individual tenderer or as a member of a consortium submitting a tender) in only one tender. In the opposite case all tenders in which that person has participated may be excluded from the evaluation.

##### 4.1. Joint Offers/ Groupings (Consortia)

- Groupings (consortia), irrespective of their legal form, may submit a tender on condition that it complies with the rules of competition. A consortium may be a legally-established permanent grouping, or informally constituted group of tenderers submitting an offer (joint offer) for a specific tender procedure.
- Cedefop does not require consortia (if any) to have a given legal form in order to submit a tender, but reserves the right to require a consortium to adopt a given legal form before the contract is signed (if this change is necessary for proper performance of the contract). This can take the form of an entity with or without legal personality but offering sufficient protection of the contractual interests of Cedefop.
- If awarded the contract, the tenderers of the group (consortium) will have an equal standing towards Cedefop in executing it.
- A grouping (if any) of firms must nominate one party to be responsible for the receipt and processing of payments for members of the grouping, for managing the service administration, and for coordination.
- Tenders submitted by consortia of firms must specify the role, qualifications and experience of each member or of the group (please fill-in the respective Questionnaires in Annex G).
- Each member of the group (consortium) must provide the required evidence for the exclusion and selection criteria. Concerning the selection criteria, the evidence provided by each member of the group (consortium) will be checked to ensure that the consortium as a whole fulfils the criteria.

- The offer has to be signed by all members of the group (consortium). However, if the members of the group so desire they may grant an authorisation to one of the members of the grouping (consortium). In this case they should attach to the offer a power of attorney (see model in Annex I) authorising this company or person to submit a tender on behalf of the grouping (consortium). For groupings not having formed a common legal entity, Annex I, model 1 should be used and separate legal entity forms (see point 3.3 and Annex D) should be completed and signed by all members. For groupings with a legal entity in place, Annex I, model 2 and one legal entity form (see point 3.3 and Annex D) should be completed and signed only by the single representative of the consortium.

The contract will have to be signed by all members of the group (consortium). If the members of the group (consortium) so desire, they may grant authorisation to one of the members of the grouping by signing a power of attorney. The same model as above duly signed and returned together with the offer (Annex I) is valid also for signature of the contract.

Partners in a joint offer assume joint and several liability towards Cedefop for the performance of the contract as a whole.

#### **4.2. Subcontracting/Subcontractors**

Subcontracting is defined as the situation where a contract has been or is to be established between Cedefop and a contractor and where the contractor, in order to carry out that contract, enters into legal commitments with other entities for performing part of the service. If awarded, the contract will be signed by the selected Tenderer (the Contractor), who will be vis-à-vis Cedefop the only contracting party responsible for the performance of this contract. Cedefop has no direct legal commitment with the subcontractor(s).

The contractor retains full liability towards Cedefop for performance of the contract as a whole. Cedefop will treat all contractual matters (e.g. payments) with the contractor, whether or not some tasks are performed by a subcontractor. Under no circumstances can the contractor avoid liability towards Cedefop on the grounds that the subcontractor is at fault. Any subcontracting/subcontractor must be approved by Cedefop, either by accepting the bidder's tender, or, if proposed by the Contractor after contract signature, in writing by an exchange of letters. In the latter case subcontracting/subcontractor will be accepted only if it is judged necessary and does not lead to distortion of competition.

Tenderers are free to choose their subcontractors from both eligible and non-eligible countries. Thus, in principle all economic operators can act as subcontractors of eligible tenderers.

The tenderer must clearly indicate the identity of each Subcontractor and the percentage of work by value that he will perform for this contract (please fill in Annex G).

**Only in cases when:**

- a Subcontractor undertakes between 10% and 40% of the work by value,
- the total subcontracting is above 40% of the work by value, independently of the individual Subcontractor's contribution to the work by value,

should the tenderer submit with the offer:

1. the Declaration on honour on exclusion & selection criteria (Annex C) filled-in and signed by the respective Subcontractor;
2. the required documents related to the economic/financial and technical/professional capacity of the Subcontractor as described in points 3.2.1 and 3.2.2;
3. the Form in Annex J (Model of Letter of Intent for Subcontractor/s) duly filled-in and signed by each respective Subcontractor, stating his unambiguous undertaking to collaborate with the tenderer if the latter wins the contract. Also should be stated the roles, activities and responsibilities of the subcontractor(s) and the extent of the resources that the respective subcontractor will put at the tenderer's /contractor's disposal for the performance of the contract

N.B. The subcontractor(s) (if any) have to provide the documents to prove their capacity only for the parts of the contract that are relevant to them. The evidence provided will be checked to ensure that the tenderer with the subcontractor(s) altogether fulfil the criteria.

## 5. AWARD OF THE CONTRACT

Only the tenders meeting the requirements of the exclusion and selection criteria will be evaluated in terms of quality and price.

**The contract shall be awarded to the tenderer submitting the tender that offers the best-value-for-money as represented by the highest Total Score (TS) out of 100.**

The Total Score (TS), comprising quality + price score, will be calculated for each tender by applying the formula below:

$$\text{Total Score (TS)} = X \cdot (\text{TQV}/100) + Y \cdot (\text{Cheapest TFO} / \text{TFO})$$

Whereby:

**TQV = Total Quality Value** of the tender (as per points 5.1 and 5.2);

**TFO = Total Financial Offer** of the tender (as per points 5.3 and 5.4);

**X** is the weighting for quality score (TQV) and for this tender procedure it is fixed to **(60)**.

**Y** is the weighting for price (TFO) and for this tender procedure it is fixed to **(40)**.

**Cheapest TFO** is the Cheapest Tender Price of a technically compliant tender (i.e. among those having achieved a minimum of 50% of the possible score for each award (evaluation) criterion and in total a minimum of **65** out of 100 points (TQV) in the technical evaluation – see below).

### 5.1. Technical evaluation

The assessment of the technical quality will be based on the ability of the tenderer to meet the purpose of the contract as described in the tender specifications.

The following Award Criteria for the technical evaluation will be applied to this tender procedure:

Award criteria	Maximum number of points
<b>(1) ORGANISATION AND METHODOLOGY</b>	<b>60</b>
1.1. A detailed description of the methodology proposed to be used for organizing and carrying out the services requested.	30
1.2. A detailed justification of the choice of proposed methodology and of its advantages compared to other methodologies applied in security services.	10
1.3. A detailed split of tasks among the project team.	10
1.4. A description of the internal team communication.	5
1.5 A description of the communication with Cedefop.	5
<b>(2) QUALITY ASSURANCE AND RISK ASSESSMENT</b>	<b>40</b>
2.1. Back-up/replacement arrangements	25
2.2. A description of the roles of Team Leader and Project Manager in quality assurance	15
<b>Overall total score</b>	<b>100</b>

In order to guarantee a minimum threshold of quality, offers that

- do not reach a minimum of 50% of the possible score for each of the award (evaluation) criteria 1 and 2, and
- obtain an overall total score (Total Quality value) of less than the total **65** (of a maximum of 100) points against the award (technical) criteria,

will not be considered acceptable and will be eliminated from further evaluation. Only the technically compliant (acceptable) tenders as per the above will be subject to Financial (Price) Evaluation (5.3).

## 5.2. Technical proposal

The tenderer's technical proposal should consist of a clear and comprehensive response to all requirements as per the Technical Specifications in point 2 above providing a practical, detailed description of the services proposed for performance of the contract.

Tenderers are requested to organise the technical offer in headings or to structure it in such a way so as to ensure that the content of the technical offer meets the requirements set out in the Technical Specifications as closely as possible and to facilitate the subsequent evaluation of tenders against the technical award criteria. It is up to the tenderer to present in his Technical Proposal a detailed organisation and methodology such that they fulfil (comply in full with) all requirements outlined in the Technical Specifications.

Tenderers are requested to include their technical proposal (envelope B) in one original and three hard copies.

For the technical evaluation of the offer against the award (technical) criteria mentioned above, the tenderer must provide:

### **For award criterion 1:**

*For award sub-criterion 1.5*

- The communication with Cedefop, including the proposed reporting scheme on all provided services e.g. daily report on security checks, incidents report, monthly timesheets etc. both for regular services and in an emergency event.

**For award criterion 2:**

This is to assess the extent to which the proposed team set-up will be suitable for the implementation of the framework contract.

*For award sub-criterion 2.1*

- Provide detailed procedure description and timetables of duty response related to the capability a) to replace staff (guards/reception assistants) found to be underperforming or b) to provide additional guards upon request or c) in an emergency event;

*For award sub-criterion 2.2*

- Role of Team Leader and Project Manager in quality assurance (performance monitoring, accuracy of reporting, timing, appropriateness of uniforms and equipment, appraisal procedures, regular trainings, recruitment etc.);

**5.3. Financial evaluation**

Only tenders scoring in total **65** points or more (of a maximum of 100 points) against the technical award criteria and 50% or more of the possible maximum score for each of the award criteria 1 and 2 will have their financial proposal evaluated. The evaluation will be made on the basis of the **Total Price** offered, table 1.4 of the Financial Proposal (see point 5.4 & Annex H).

The tenders are awarded points for the Total Price offered by using the following formula:

*Financial score = (cheapest Financial Proposal / Financial Proposal of the tender considered) \* Y.*  
Where Y = price weighting (see the complete formula under point 5 above)

**Information concerning price**

- The prices quoted must be fixed and not revisable for the first year of the contract. From the 2<sup>nd</sup> year onwards Articles I.5.2 and II.20 of the Contract shall apply (see draft Framework Contract at Annex B).
- Prices must be quoted in EURO and include all expenses.
- Under Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Communities, Cedefop is exempt from all charges, taxes and dues, including value added tax (VAT). Such charges shall therefore not be included in the calculation of the price quoted.

For contractors based in Greece, invoices will include VAT which is paid by Cedefop and later reimbursed by the State.

For contractors established in other countries, exemption is direct (invoices are submitted without VAT), subject to fulfilling as necessary the requirements of Article 151 of Council Directive 2006/112/EC.

In Belgium, use of this contract constitutes a request for VAT exemption No. 450, VAT exemption article 42, paragraph 3.3 of the VAT code (circular 2/1978), provided the invoice includes: "Commande destinée à l'usage officiel de l'Union Européenne, Exonération de la TVA; art. 42 § 3.3 du code TVA (circulaire n° 2/1978)".

### 5.3.1. Evaluation of abnormally low prices

If any tender's price appears to be abnormally low in relation to the services offered, and in order to check if the tender can be considered valid, the evaluation committee will, before it may reject this tender, send a request for clarifications to ask for explanations on the components of the tender which it considers relevant to the presumed abnormally low price and shall verify those constituent elements taking account of the explanations received. If in that relation the tenderer cannot explain his price on the basis of the economy of the services or supplies offered, or the method used, or the technical solution chosen, or the exceptionally favourable conditions available to the tenderer, the tender will be rejected.

A price will be considered abnormally low if the financial offer of any tenderer is lower with more than the acceptable margin of deviation from the average price of the other technically acceptable offers (please note that definition of which offers are technically acceptable/ compliant is given in points **5**, **5.1** and **5.3** above). The actual deviation will be calculated as % as follows:

The difference between the average price of the other technically acceptable offers *and the value* of the presumably abnormally low financial offer will be divided by the average price of the other technically acceptable offers.

The acceptable margin of deviation is set to **20%**.

The approach of the Evaluation Committee to identify and eliminate abnormally low tenders will be the following:

- a) apply the acceptable margin of deviation from the average price of the other technically acceptable offers and set aside the offers that go beyond it;
- b) check if specific notes or specific items included in the offer justify to some extent the deviation; if not, or if inadequate, send relevant request for explanation(s) to the tenderer concerned;
- c) decide on the acceptability of the offer on the basis of the notes in the tender and/or the clarification reply received.

#### 5.4. Financial Proposal / Financial Scenario

The financial proposal must be clear and in compliance with the tender specifications. All services that shall be procured should be included.

The Financial Proposal (Financial Scenario) should indicate the total price in order to carry out all the activities indicated in the Technical specifications. The tenderers must fill-in the 4 price schedule tables (1.1., 1.2., 1.3 and 1.4) in **Annex H**.

The Financial Offers will be checked for any arithmetical errors in computation and summation. Errors will be corrected by the evaluation committee as follows:

- where there is a discrepancy between a unit price and the total amount derived from the multiplication of the unit price and the quantity, **the unit price as quoted** will be the price taken into account. Tenderers will be requested to confirm in writing the corrected calculation so that it may eventually be included in the contract.
