Name of the instrument - English translation	Programme "Technology training"
Scheme ID	341
Country	 Latvia
Reporting year	2020
Type of instrument	Grant for companies
Sub-type of instrument	Support for direct costs
Type of entry	Single instrument

Short description	The scheme promotes training opportunities for the employees of companies so that they can more easily adopt innovation in their companies. The technology training programme focuses on companies in the manufacturing, ICT and tourism sector, global business service centres sector. An applicant, meeting pre-determined criteria, can apply for a grant. A grant is allocated as a lump-sum payment to the sectoral business association. The maximum public funding provided to one project is EUR 900 000. The funding can be transferred as an advance payment and as cost reimbursement. Eligible costs include training costs, salary costs of the training provider, travel costs and accommodation costs only for training provider and project management costs. There is no preferential treatment.
Short description of the related instruments	Not applicable

Level of operation	National
Name of a part of the country	Not applicable
Name of the region (for regional instruments)	Not applicable
Name of the sector (for sectoral instruments)	Not applicable

Relevance	Key instrument
Legal basis	Cabinet of Ministers Regulation Nr. 617. Technology training implementation rules. Available here (in Latvian) https://likumi.lv/ta/id/277601-darbibas-programmas-izaugsme-un-nodarbin...
Objective(s) and target(s)	The regulation of the instrument states that: "The aim of the instrument is to ensure that companies have well-trained personnel which in turn contributes to the productivity and introduction of new or improved products or services".
Year of implementation	2016
Year of latest amendment	2020
Year of termination	2020
Operation/management	The programme was designed by the Ministry of Economy and financed by ERDF. The programme is implemented by the Central Finance and Contracting Agency of Latvia. It is supervised by the Managing Authority of ERDF in Latvia - Ministry of Finance. Employer association and Chamber of Commerce are part of the ERDF Operational Programme monitoring committee which decided about the introductions of the programme. Representatives of the largest sectorial business associations were involved in the design of the programmes as well as are direct beneficiaries who are responsible for the identification of training needs in their specific sectors as well as organizing the training for companies.
Eligible group(s)	The programme requirements define eligibility criteria not for the companies (final beneficiaries), but for the sectoral associations who are the direct beneficiaries and have to submit projects. The requirements for the associations are: - Have to be registered in the commercial register for at least 5 years. - Work in the sector covered by RIS3. - Members of the association represent RIS3 sectors and the annual turnover of the members exceeds 142 m EUR. Eligible groups are enterprises (led by sectoral associations) developing innovative products in priority areas of the Smart Specialization Strategy of Latvia. The training has to be aimed at bringing about innovation of a sort; for example, training is expected to lead to a new product, process, marketing approach, organisational structuring, etc. (within the company).
Group(s) with preferential treatment	No preferential treatment
Education and training eligible	Training provided by the enterprise itself or external training course provider, including: -General courses (e.g. language courses); - Occupational courses connected to the present economic activity of the participant; - Occupational courses of all kinds; - Any kind of non-formal education/courses (e.g. for private issues only).
Source of financing and collection mechanism	ERDF and national budget
