

# National Team of Experts for Vocational Education and Training (EVET)

POLICY DEVELOPMENT

PRACTICAL MEASURE/INITIATIVE

 POLAND

## Timeline

2021 Implementation

2022 Implementation

2023 Implementation

2024 Implementation

ID number 45017

## Background

Due to the great interest in projects under the Erasmus+ programme, there is a need to provide support to beneficiaries in implementing EU tools related to vocational education and training (e.g. EQAVET framework, EU basic profiles, graduate tracking).

## Objectives

- (a) setting up a national team of experts for vocational education and training;
- (b) providing support to beneficiaries in implementing EU tools related to vocational education and training (VET).

Its mission is to improve the quality of VET and to support the cooperation of vocational schools with employers in Poland and Europe. The team also serves higher education, especially State higher vocational schools in practical studies.

## Description

In 2021, the Foundation for the Development of the Education System began providing organisational services to the Team of Experts for Vocational Education and Training (EVET) nominated by the Ministry of Education and Science. They work closely with the National Europass and Euroguidance Centre, also run by the Foundation. The Team's main tasks include promoting and advising on the practical application of EU instruments related to supporting educational mobility, ensuring high-quality learning outcomes, and the recognition of competences and qualifications.

The Action Plan of the Team of Experts is an integral part of the Erasmus+ Work Plan. The objectives are implemented through consultations, seminars, conferences, workshops, training sessions, lectures, debates, study visits, and analytical work, and expert advice is provided to the Erasmus+ programme beneficiaries and other entities active in the VET system in Poland.

2021 Implementation

In 2021, the National Team of Experts for Vocational Education and Training (EVET) consisted of seven experts in higher education and 11 in education nominated by the Ministry of Education and Science.

In cooperation with this expert group, seminars, thematic conferences, workshops, training courses, lectures, debates and study visits were organised for the beneficiaries of the Erasmus+ Programme.

During that time the team, supported and led by FDES, organised four meetings that gathered over 500 stakeholders and included 15 different presentations (face-to-face, hybrid and online, due to Covid-19 limitations) and four articles were prepared to be published in 2022.

### 2022 Implementation

The National Team of Experts for Vocational Education and Training (EVET) consisted of seven experts in higher education and 10 in education all nominated by the Ministry of Education and Science.

In cooperation with this expert group, seminars, thematic conferences, workshops, training courses, lectures, debates and study visits were organised for the beneficiaries of the Erasmus+ Programme. At the beginning of April 2022, the EVET Team website was launched. In 2022, *Directions of development of vocational education and training Volume 1* was published, containing a selection of texts prepared by the National Team of Experts for Vocational Education and Training.

### 2023 Implementation

The Team continued its work. Team members participated in over 30 seminars, conferences and thematic meetings promoting the Erasmus+ Programme and the VET sector. They delivered 5 training seminars, 7 webinars for VET teachers and 50 hours of consultations on VET-related topics, as well as 2 advisory meetings for learners, with over 1300 participants altogether. The experts organised the III Europass and Euroguidance VET Forum (over 600 participants) and took part in 5 international events. The outcomes of experts' activities were also 4 articles, 9 presentations and the second edition of the publication 'Directions of development of vocational education and training'.

### 2024 Implementation

The Team, consisting of 23 experts, continued its work. Team members participated in over 40 seminars, conferences and thematic meetings promoting the Erasmus+ Programme and the VET sector. They delivered 21 training seminars for VET teachers and career counsellors, 11 webinars and 58 hours of consultations on VET-related topics, plus 10 advisory meetings for learners, with over 3 000 participants altogether. The experts organised the IV Vocational Education Forum (over 580 participants) and participated in 4 international events, including 2 study visits. The outcomes of the experts' activities were also 15 presentations and 10 articles, out of which 7 were published in the third edition of the publication 'Directions of Development of Vocational Education and Training'.

## Bodies responsible

- Ministry of National Education
- Foundation for the Development of the Education System (FRSE)
- Ministry of Education and Science (from 2021 until 2024)

## Target group

Education professionals

Teachers  
Trainers  
School leaders  
Adult educators  
Guidance practitioners

### **Entities providing VET**

VET providers (all kinds)

### **Other stakeholders**
