Background

The Lifelong career guidance centres (CISOK) were introduced in 2013 to provide tailored lifelong career guidance to all citizens, especially young people (pupils and students) and NEETs. To deliver highly accessible services based on local needs, CISOK strongly rely on a broad network of partnerships, including local chambers, universities, adult education institutions, education providers, and NGOs.

Objectives

The main objectives of the partnership-based approach of CISOK are to:

- (a) balance labour market needs and competence development
- (b) offer tailored guidance to different target groups at the local and regional levels

Description

Since 2016, Lifelong career guidance centres have been continuously signing cooperation agreements with local-level partners so as to identify the needs of specific groups and offer tailored career guidance services. Local partners involve schools, colleges and universities, volunteer centres, Roma associations, public health and social welfare centres, youth associations, local stakeholders in trades, crafts and the economy, as well as development agencies. By the end of 2018, 337 cooperation agreements were signed. Lifelong career guidance centres are the focal points for these activities as part of the national youth guarantee programme and the 2016-18 strategic plan of the ministry responsible for labour.
