Description

A Regulation on practical vocational training introduced in February 2019 provides more flexibility in the requirements for in-company trainers on work experience and pedagogical training, as some of the previous regulations limited the possibilities for professionals to engage in VET.

It also sets:

- (a) the framework programme for a pedagogical course for trainers in companies, decreasing the required number of hours for pedagogical training from 80 to 45;
- (b) the scope of information included in the certificate issued after completing this course.

2019 Approved/Agreed

Due to the implemented changes in VET programmes, a new Regulation on practical training, harmonising the provisions of the 2010 regulation with the regulation from February 2019, was introduced in March 2019.
