

Mandatory teacher CPD and incentives to attract specialists

POLICY DEVELOPMENT**REGULATION/LEGISLATION** **POLAND**

Timeline

2017 Approved/Agreed**ID number 28494**

Background

Previously, the Teachers' Charter stated that teachers had the right to participate in all forms of CPD and were to work on their own 'personal development'. Continuous professional development was required of teachers wanting to advance to higher levels. The Teacher's Charter specifies four categories of job positions in the teaching profession (trainee teacher, contractual teacher, appointed teacher, chartered teacher), which have a direct impact on a teacher's basic salary level. Promotion to the next position required a given number of years of school experience, completion of an internship and a positive assessment of professional achievements during the internship, as well as additional conditions.

Description

In October 2017, the Act on financing educational tasks was adopted. The Act made teacher CPD obligatory and to be conducted in line with the school's needs. Head teachers report annually on teachers' CPD. Changes in teachers' advancement procedures were also implemented, however, they were withdrawn in a subsequent amendment to the Teachers Charter in 2019.

The Act also allowed higher salaries to be paid to specialists employed at schools who are not teachers. Previously, such a salary could not be higher than 184% of the 'base amount' for a teacher. After the change, local authorities managing schools were able to agree to salaries higher than this limit.

2017 Approved/Agreed

In 2017, the regulation was approved and put in force.

Bodies responsible

- Ministry of National Education
- Ministry of National Education (until 2021)

Target group

Education professionals

Teachers
Trainers
School leaders

Thematic categories

Teachers, trainers and school leaders competences

Systematic approaches to and opportunities for initial and continuous professional development of school leaders, teachers and trainers

Attractiveness of the teaching and training profession/career

Subsystem

IVET CVET
