ID number 28292

Description

Following the successful implementation of similar projects in previous years, in 2015 the Chamber of Commerce and Industry organised further training programmes to prepare another 2 000 trainers in companies for the master craftsman examination, and also set up the largest training programme ever organised by a chamber in the country, training 5 000 practical teachers. In addition, new training for trainers in companies was introduced in 2018 targeting those without a master craftsman certificate. It provides them with the necessary pedagogical knowledge and competences to better undertake their duties.
