

Reforming the qualifications structure

POLICY DEVELOPMENT**REGULATION/LEGISLATION** FINLAND

Timeline

2017 Approved/Agreed**2018 Implementation****2019 Completed****ID number 28206**

Description

As part of the 2018 reform the Ministry of Education confirmed in February 2017 the restructuring of vocational qualifications as of January 2019. The number of vocational qualifications has decreased from 351 to 164 (43 vocational qualifications, 65 further vocational qualifications and 56 specialist vocational qualifications). The new qualification structure, which is composed of broader qualifications, helps individual learners better organise their competence development in a more flexible way and in line with the changing demands of working life.

2017 Approved/Agreed**2018 Implementation****2019 Completed**

The restructuring was completed in 2019, setting up 42 vocational qualifications, 64 further vocational qualifications and 55 specialist vocational qualifications.

2018 Completed

Validation of prior learning for adults

The competence-based qualifications in Finland embed validation of non-formal and informal learning as an integral part of the entire CVET qualifications system. The system has been in place since 1994 and was further strengthened in 2007 and in 2015 by the Decree on individualisation.
