## Description

An online platform for CVET professionals has been put in place. It addresses staff from public administration, employment services as well as other educators, employers and NGOs. It provides an overview of CVET offers, relevant legislation, main actors and instruments as well as statistical data and analyses. It promotes networking, sharing know-how and cooperation among professionals. Completed at the end of 2015, it is the result of a project (Kooperaace) developed by the Further Education Fund under the auspices of the labour ministry. By 2019, the portal was in use as an information providing platform for experts in the field of CVET.
