Ethical guidelines on the use of artificial intelligence (AI) and data in teaching and learning for educators

Directorate-General for Education, Youth, Sport and Culture (European Commission)

These ethical guidelines on artificial intelligence (AI) and data usage in teaching and learning are designed to help educators understand the potential that the applications of AI and data usage can have in education and to raise awareness of the possible risks so that they are able to engage positively, critically and ethically with AI systems and exploit their full potential.
