

The Union of Skills

Communication from the Commission to the European Parliament, the European Council, the Council, the European Economic and Social Committee and the Committee of the Regions

Description

The European Commission's communication on "The Union of Skills" emphasises the critical role of human capital in ensuring the EU's prosperity, economic resilience, and competitiveness. It identifies key challenges such as skills shortages, gaps in STEM fields, and the need for inclusive education systems that can adapt to technological advancements and the green transition. The strategy targets to address these issues by improving basic literacy, digital skills, and STEM education, supporting lifelong learning and workplace training, and facilitating the recognition and portability of skills across the EU.
