1 Target group

Q7. What is the target group of this scheme?

✓ **YOUNG PEOPLE IN INITIAL VOCATIONAL EDUCATION AND TRAINING (15-16 YEAR-OLDS)**

✓ **YOUNG ADULTS IN EDUCATION AND TRAINING (ABOVE 16 YEAR-OLDS)**

✓ **UNEMPLOYED**

✓ **OTHER (PLEASE SPECIFY IN THE DESCRIPTION)**

Apprenticeship training is targeted at:

- people who have completed or have not completed basic and upper secondary education, but who do not have any professional skills;
- younger people who prefer practical training to school-based studies, often identified as students with low academic levels;
- unemployed people;
- already working employees that do not have a required qualification.

Q8. What is the age of learners?

There is no age limit for pursuing apprenticeship training. In 2013/14, there were about 583 students in WBL; most of the students (about 71%) were older than 25 years, while 24% were aged 20-24. The share of WBL students aged above 25 has been growing from 55% in 2009/10 to 71% in 2013/2014[1].

[1] Due to the formal VET recognition in Estonia (CVET is recognised as formal VET), data covers apprenticeships in both IVET and CVET.

2 Overview of the scheme

Q9. Is the scheme included in the ISCED 2011 mapping?

The apprenticeship scheme is not included separately in the ISCED 2011 mapping, but apprenticeship training can be pursued in the following programmes:

- vocational education for persons who do not have basic education and who have exceeded the age of compulsory school attendance – prog. 02.03 , ISCED-P 2011 level 251/253 (2C);
- vocational courses based on basic education – prog. 03.03, ISCED-P 2011 level 351/353 (3C);
- vocational secondary education – prog. 03.04, ISCED-P 2011 level 354 (3B);
- vocational education based on secondary education – prog. 04.02, ISCED-P 2011 level 454 (4B);
- specialised vocational training (EQF level 5, established during the 2013/2014 academic year, not previously available, ISCED-P 2011 level 454).

Q10 - Is the scheme part of the VET system?

✓ YES, IT IS THE MAIN ROUTE IN THE VET SYSTEM

✓ YES, BUT IT IS CONSIDERED A SECOND-CHANCE ROUTE

✓ NO, IT IS AN ALTERNATIVE PATHWAY OUTSIDE OF FORMAL VET

Apprentices can study at all levels and in all programmes in the Estonian VET system. The only exception is level 351/353 (3C) programmes, where the apprentices can enter directly, while the other students have to enter the level 354 (3B) programme first and show that they have difficulties with the general education part of the curriculum.

Q11 - When was the scheme introduced?

The scheme was formally introduced in 2006 (see Q5).

Q12 - How did the apprenticeship scheme originate?

✓ TRADITIONAL CRAFTSMANSHIP (MASTER-APPRENTICE RELATION) TO PREPARE APPRENTICES FOR THE OCCUPATION

✓ SCHOOL-BASED VET TRACK BY INCLUDING MORE WORK-BASED LEARNING TO SUPPLY SKILLED WORKFORCE TO MATCH LABOUR MARKET NEEDS

✓ PROGRAMMES FOR THE UNEMPLOYED (ACTIVE LABOUR MARKET MEASURES) TO FACILITATE INTEGRATION ON THE LABOUR MARKET

✓ OTHER

The workplace-based learning was legalised as a new study form in addition to the school-based study form.

Q13 - What are the major sources of financing of the in-company training part of the apprenticeship scheme?

✓ BY COMPANIES HOSTING APPRENTICES

✓ BY EMPLOYERS THROUGH SECTORAL FUNDS

✓ BY THE STATE FROM THE EDUCATION BUDGET

✓ BY THE STATE FROM THE LABOUR / SOCIAL SECURITY BUDGET

✓ BY EU FUNDING

✓ OTHER

Estonia finances the apprenticeship training from state budget (around 600 study places per year) and from EU structural funds (benchmark for year 2020 – 8000 study places[1]). The financing principles and legal basis from both financing sources are the same. The Ministry of Education and Research orders study places in both financing schemes. EU structural funds aim at expanding apprenticeship training. After 2020, apprenticeship training is planned to be funded solely through state funds.

However, there may also be other arrangements to fund an apprenticeship programme depending on the agreement between the vocational education institution and the enterprise. If the training of the students is in the interest of the employer, the company may take on the entire financial burden related to the company-based training, whereas if the apprentice is sent to the company by the school, the school pays the salary for the supervisor in the enterprise.

[1] Due to the formal VET recognition in Estonia (CVET is recognised as formal VET), data covers apprenticeships in both IVET and CVET.

Q14 - Are there any financial incentives for companies that offer apprenticeship places?

✓ YES, SUBSIDIES

✓ YES, TAX DEDUCTIONS

✓ YES, OTHER INCENTIVES

✓ NO FINANCIAL INCENTIVES

The state finances VET schools and in turn they offer training for company trainers and pay up to 50% of the cost of the study place to the in-company trainer.

Among other activities the advisory body provides assessment on the organisation of practical training at school, institutions and enterprises.

The Chambers are also involved as awarding bodies and are responsible for qualification exams. They participate in assessment commissions and accreditation council of accrediting curricula groups of VET Schools
