

# Eurostat: Statistics on young people neither in employment nor in education or training (NEETs)

*Eurostat overview on NEETs*

## Description

---

This regularly updated summary page presents an overview of European Union (EU) statistics related to young people neither in employment nor in education or training (NEET). It equally provides information on the transition from education to work and focuses on the number of young people who find themselves disengaged from both education and the labour market. Moreover, this site offers a number of links to additional information as well as access to the original database, which can be found [here](#). This data base showcases rates of young people not in employment, education or training by citizenship, by different age groups. Data from all EU Member States and some candidate countries with data partly available from 2004 onwards (available in English, French and German).
