

# Quick labour insertion increases VET attractiveness

## Description

Cedefop's opinion survey on vocational education and training (VET) examines EU citizens' awareness and opinions on VET's attractiveness and effectiveness.

See their opinion regarding the following statements about the job that people can get after education at upper secondary education. To what extent do you agree or disagree with each of them? - Vocational education allows you to find a job quickly after obtaining a qualification or diploma.

© Cedefop - All rights reserved - Opinion survey on VET, 2016 | Q18.4. Attractiveness of VET: labour market outcomes - Leading to employment | Show me statistics by: Educational orientation - All respondents | with answer: OPNSRV\_Q18T4\_A1
