

Cross-sectoral cooperation focused solutions for preventing early school leaving

CroCooS

Krisztina Mihalyi
project manager
Tempus Public Foundation, Knowledge Centre,
Hungary

Aims & objectives of the project

EARLY WARNING SYSTEM

Institution level

Policy experimentation (randomized
controlled trial)

3 countries: HU, SER, SLO – pedagogical
focus

Main results

Research outcomes
Guidelines for schools
On-line Toolkit
Evaluation of pilot effect
Policy recommendations

6 distress signals

Absenteeism

Decreasing achievement

School year repetition (note: depends on the system of each country)

Boredom (low motivation)

Drastic behavioural changes (aggression, introversion, rhapsodic behaviour)

Bullying (both sides)

Data keeping ?

Guidelines
