- ➔ Action plan, career portfolio, europass,cv
- ➔ External education providers and workplacebased training, YAP
- ➔ APEL, validation

LEONARDO DA VINCI PROGRAMME

Improving access to Guidance for those in Employment

aim:

- Produce tools and methodologies to improve the availability of advice and guidance in employment and strengthen the links between guidance counsellors and employers.

WHY?

- * Meet the needs of target group (people, both employees and unemployed, with low level of formal education)
- * Develop SMEs and workplaces as effective tools for training, guidance, integration and validation.
- * Support to local SMEs – a way to support economical growth and make the staff better prepared for future changes in economy.
- * The use of guidance counsellors can assist with developing a demand based strategy as opposed to a traditional supply based training strategy

YAP, workplace based vocational training for adults

- Who can participate, target group?
- What is needed/required from the workplace ?
- How is it all financed?
