REQUEST FOR CLARIFICATION (4) – QUESTION AND ANSWER

Question Nr. 1

In study visits Web site both Participants Door and Management Door are for registered users only. Can you please provide us with the appropriate Username and Password in order to be able to view the content of these pages?

Cedefop’s clarification to Question Nr. 1

It is not possible for Cedefop to provide Username and Password to tenderers in order to be able to view the content of Participants Door and Management Door, because it would give access to some protected information.

As described in Annex G, the Participants door is reserved to Study Visits participants. The Participants door contains information about the Study Visit to which the person concerned will participate or has participated. For the purpose of the present call, we expect a lay-out that will optimally present that list of documents/actions regardless of its specific content.

The Management door is reserved to the National Agencies and to Cedefop’s Study Visits team, who use it to manage participants and visits. For the purpose of the present call, we expect a lay-out that will optimally present that list of documents/actions regardless of its specific content.
