Qualification Requirements  
of European Labour Market

Jan Koucký

Forecasting skill supply and demand in Europe  
SkillsNet Workshop, Thessaloniki, 9-10 June 2009

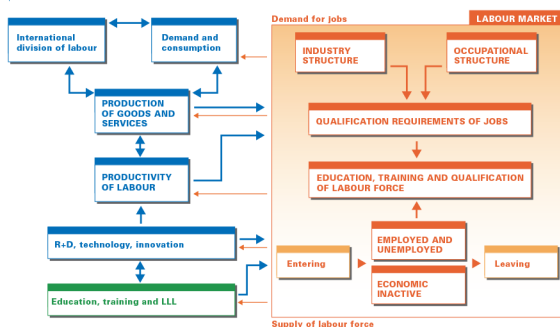

Three tasks of Education Policy Centre:

1. What determines the number of jobs by sectors?
2. What affects the occupation structure of jobs (by sectors)?
3. What are qualification requirements of jobs (by occupation and by sectors)?

The EPC combines quantitative and qualitative approaches.

It will be illustrated using the printing and publishing sector as an example.

Economy – Labour Market – Qualification, Education and Training

Sources for quantitative approach

International surveys

- **European Labour Force Survey:** Jobs in Europe, by sector (NACE 2<sup>nd</sup> level), by occupation (ISCO 3<sup>rd</sup> level), 1995-2008
- **European Social Survey** (4 rounds, every second year, 2002-2009)
- **EURES** (Employers Survey, 2007-2009)
- **CHEERS** 1997-1999 (Graduates on the labour market)
- **REFLEX** 2005-2007 (Graduates on the labour market)
- **OECD project PIAAC** (under preparation, 2011-2012): J.R.A.

National surveys

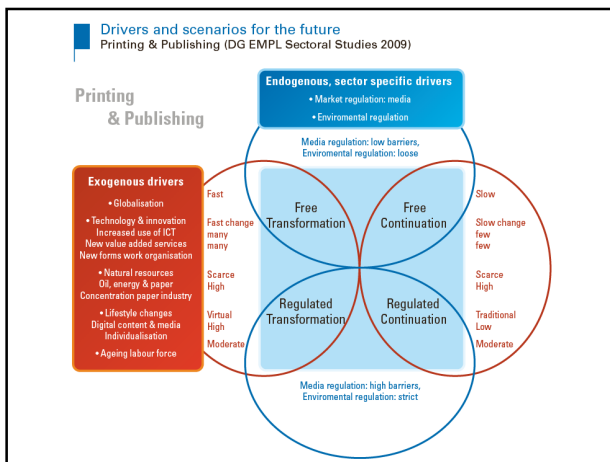

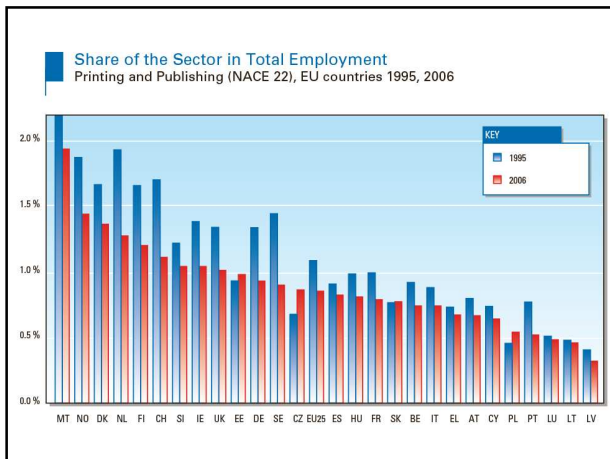

- **USA:** O.P.T.D. and O\*NET programmes (every 2 years, ongoing)
- **Italy:** Indagine sulle professioni 2006-2007
- **Czech Republic:** Qualification Requirements 2007-2008
- **United Kingdom:** Skills Survey 1986 - 2006

### 3. What are qualification requirements of jobs (by occupation and by sectors)?

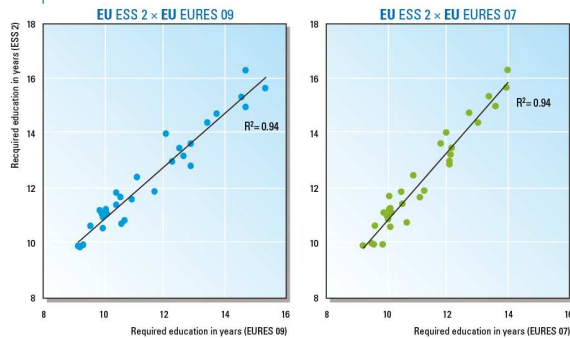

### European Qualifications Framework (EQF) Descriptors defining 8 levels of qualification

	Knowledge	Skills	Competence	Education required
Level 1	Each of the 8 levels is defined by a set of descriptors indicating the learning outcomes relevant to qualifications at that level in any system of qualifications.			ISCED 1

### How to make EQF empirically operational ?

#### By using three national surveys

- **USA:** O\*NET programme (ongoing)
- **Italy:** "Indagine sulle professioni" (2006-2007)
- **Czech Republic:** "Kvalifikace 2008" (2007-2008)
