# European Skills Index

8135 EN -T1-03-19-874-EN-N - doi:10.2801/979835

#EuropeanSkillsIndex

## Compare EU skills systems performance

The **European Skills Index (ESI)** is a unique index that captures European countries' performance in skills **development, activation and matching**.

## Identify areas for improvement and discover best practices across EU countries

The ESI is more than a score: it is a ground-breaking tool that can help you ask the right questions on how to improve your skills system.

## Discover your country's performance

An **online tool** allows you to visualise rankings across EU countries and measure the distance of your country to the ideal performance across all levels of your skills system.

# Data you can trust

Cedefop's work on the European Skills Index meets 'international quality standards for statistical soundness' according to an **independent statistical audit** by the Joint Research Centre.
