OPEN INVITATION TO TENDER

AO/ECVL/LZAH-JB/GoverningOccupationsProfessions/002/11

'The role of qualifications in governing occupations and professions*'***

CLARIFICATION CORRECTION (2)

Point 5.4 – Financial proposal – Price schedule (table 1)

In point a) - Sub Total (1) = (I) + (II) = ... Should read,

Sub Total (1) = (I) x (II) = ...

Besides, if the "number of person days" is distinguished among profiles as per the asterisk, the same distinction must apply to the "price per person day" and Sub Total (1) should be the sum of all profiles (number of person days x price per person day per profile):

e.g. Sub Total (1) = (expert person days x price per person day) + (secretary person days x price per person day) etc.
