OPEN INVITATION TO TENDER

AO/RES/ICT/ITK/Livelink-RedDot/015/10

'Livelink Services – RedDot Services'

REQUEST FOR CLARIFICATION (4) – QUESTIONS & ANSWERS

Question Nr. 1

Tender Specifications, Annex J – Scenario - Integration of Conference web pages into the Cedefop Webportal, Section 1 - Purpose of the Project, Conference URLs. Please let us know should we consider the existing conference URLs or we could assume that the new URLs will be something like http://www.cedefop.europa.eu/skills2009?

Cedefop's clarification to Question Nr. 1

Since the conference web pages are to be "integrated" inside the webportal, it is considered evident that they should adapt to the webportal's URL, i.e. http://www.cedefop.europa.eu/... The pathname part of the URL is expected as proposed under point 2.2. of Annex J.

Question Nr. 2

Tender Specifications, Annex J – Scenario - Integration of Conference web pages into the Cedefop Webportal. Regarding the conference user registration functionality, can you please provide more information about the existing system for hotel booking and on-line payment? In what way you are communicating with hotels booking system? Is there a mechanism to add new hotels in the list? What on-line payment system you are currently using?

Cedefop's clarification to Question Nr. 2

There is no existing electronic system for hotel booking or on-line payment. In the scenario there is no requirement for online booking of hotels. Online payments are intended to be put in place on the basis of the technical proposal of the successful tenderer/contractor but only for registration fees (see point 3.1 of Annex J).
