NUTS code GR122

II.1.3) Information about a framework agreement or a dynamic purchasing system (DPS)

The notice involves the establishment of a framework agreement

II.1.4) Short description of the contract or purchase(s)

Cedefop's skills supply and demand forecast for Europe is widely used and the forecast results appear in key EU strategic documents. The main goal of the project is to continue producing regular forecasts of skill supply and demand in a quality, size and scope comparable to the previous Cedefop forecasts. It is expected that the

methodological apparatus will be developed further and the results analysed in detail, including analysis of different scenarios and potential labour market imbalances.

The main purpose of the contract will be to undertake work on the skills supply and demand forecast in order to be able to assess the future trends in the labour market taking skills as a key parameter. These trends are vital as they provide important information for different labour market actors: employees, employers, students and parents, social partners, policymakers to take informed decisions and appropriate actions on the labour market. The forecast should act as an early warning mechanism with the aim of improving the interaction on the labour market and to avoid potential skill imbalances.

II.1.5) **Common procurement vocabulary (CPV)**

73000000

II.1.6) **Information about Government Procurement Agreement (GPA)**
