The CRM allows Cedefop to communicate with contacts relevant to the field of VET, skills and qualifications and manage email campaigns to support the Cedefop activities in line with the agency’s Communications Strategy.

The Cedefop CRM system is a central repository of individuals’ contact details, and if applicable, users may mention additional information such as their institution, job profile, etc.

Cedefop’s CRM (SuiteCRM) is a cloud-based web application that belongs to the Web portal ecosystem, which is hosted and maintained by an external contractor. All the registrations of the Web portal are managed through SuiteCRM.

To be stored in the CRM system, users need to register themselves to the Web portal and therefore give their informed consent to be contacted. They have the possibility to subscribe to various online services and receive email communications such as:

- Alerts / notifications regarding new Webportal contents / updates;
- Subscriptions to newsletters;

- Receive information in their field of interest;
- Invitations to participate in Cedefop’s surveys and/or events;
- Occasionally, Cedefop may use the CRM contact details to send important corporate communication (legal basis: article 5.1a)
