

Multidisciplinary teams as agents of change

- Why to combine multidisciplinary teams and community LLL centres?
- Given the importance of belonging, how can we make community LLL centres places where people feel they belong?
- What barriers are there for people to access community LLL centres in marginalised communities?

- Where can these one stop shops be located?
- Can non formal and formal education be combined in one location?
- Is there a tension between a learner centred and outcomes focus?
- What is the role for VET at these one stop shops?

- How to implement these to bring together existing local services?
- How to develop capacity building in local community? How to empower local stakeholders and communities to develop and run such centres?
