**Question No 1**

*On page 25 of the tender invitation document you write that "- The tenderer must have adequate experience in the field of research and comparative analysis on labour market and/or vocational education and training at European level, having performed contracts with a total minimum contract value of 600,000 Euro during the last three (3) years (to have been concluded by the deadline of submission of offers)."*

*What does "European level" mean exactly? Does research carried out with a focus on ".....", can be considered such projects?*

**Cedefop's answer to question No 1**

It is up to the tenderer to assess the relevance of specific parts of experience to the requirements of the intended study, considering that the subject covered by such previous contracts is of prime importance in that regard.

It remains up to the Evaluation Committee to assess and determine the eligibility of the proof submitted by each tenderer within the framework of the selection criteria; in case of doubt or insufficient evidence provided, the Evaluation Committee may request clarification.
