**Section VI: Complementary information**

VI.3) **Additional information:**

Estimation is based on the experience gained so far in the Skills Panorama and the foreseeable new activities. Although being developed and maintained by Cedefop, the Skills Panorama is an initiative of the European Commission, which provides political steering for the project. Thus decisions made by the European Commission may affect the site and generate needs for new developments or activities that cannot be foreseen at this stage.

Therefore, Cedefop cannot exclude that the estimated total volume of services might increase, due to external requirements for new services consisting in the repetition of similar services entrusted to the economic operator awarded the contract (after this open tender procedure).

In such case, and in accordance with Article 134(1) RAP, Cedefop may decide to use a negotiated procedure without prior publication of a contract notice, provided that these new services conform to the basic project that was the subject of the initial contract awarded under this open procedure. Such procedure may be used only during the three years following conclusion of the original contract.
