# Career guidance in VET

\* Distribution of learners in year 10 / \*\* in course of the training obligation up to the age of 18 for young people at risk of dropping out

# Importance of career guidance & CMS in VET

Proportion of dropouts by age of apprentices at the start of their apprenticeship, 2012 to 2022

## Apprenticeship dropouts 2023:

Austria: 20,1 %

Vienna: 26,0 %

around 69% in the first year of apprenticeship training

**Notes:** Drop-outs = apprentices who, at the time they ended their apprenticeship, had not yet completed their apprenticeship (in full) and had not taken their final apprenticeship examination (LAP) by the end of the following year; excluding partial qualifications
