Workshop on AI@ReferNet: Administrative documents analysis with the help of AI

23rd ReferNet annual plenary meeting

Activity overview

- Objective: demonstrate the performance of AI tools to do a summary/overview/topic identification analysis within a large volume of text across multiple documents
- Focus on public activity plans or reports of selected national institution holding the responsibility for adult learning
- Accessing selected AI tool with upload document functionality (free version of Notebook LM less limited, ChatGPT more limited)
- Uploading selected document to the tool
- Carrying out exploratory document analysis:
 - Identification of the presence of adult learning topic within the documents
 - Producing short chronological summary of the evolution of the topic
 - Identification and summarising financial information (if available)
