1 WELCOME to the ARION Study Visit

eLearning Cluster Schulen in Oberösterreich - Praktische eLearning Modelle im Sekundarschulbereich / eLearning Cluster Schools in Upper Austria - Practical eLearning Models on the Upper Secondary Level

Linz, April 20 - 25, 2008

Content of the Study Visit: Presentation of the "eLearning Cluster Upper Austria" as a part of the Austrian eLearning initiative: 12 innovative model schools (Upper Secondary) co-operate in the implementation of eLearning. Presentation of the practical work and experience in laptop-computer classes in electronic learning environments. Presentation and discussion of concepts in the further training of teachers to enhance their IT-skills and knowledge. Presentation and discussion of electronic learning material. School visits will be organised to offer the opportunity to exchange experience with teachers, heads of schools and representatives of educational authorities.

Study Visit "eLearning Cluster Schools in Upper Austria" – April 2008

Active Participation

based on

- thematic preparation
- relation to the topic and experience
- language skills
- communicative skills

- group decision – early / Monday
- equipment / laptop computer / Internet access
- language skills
- time for discussions of conclusions at the end of each day
- upload / platform for discussion and amendments afterwards / deadline
- standardised format ?

Networking and Dissemination / 1

Study visits offer an excellent opportunity for further co-operation and the establishment of European projects ...

... but also support is needed to facilitate the aim to co-operate in reality after the visit ...

18

Ideas for FURTHER CO-OPERATION

FORUM for ideas for further co-operation and projects

 FORUM for the exchange of ideas for a further co-operation

Networking and Dissemination / 2 – Concept Map

Concept map produced with Cmap Tools - <http://cmap.ihmc.us>

Benefit / added value

- new perspectives by the exchange of ideas, examples of best practice and the group discussion
- contacts and links – establishing a network – further cooperation and projects
- getting to know the host country
 - its approach to the topic
 - its system
 - its practical implementation of learning and training
 - its language and culture
- reflection of one's own approach and system with an impact on the daily work

Thank you for Your participation!
