

## PERSONAL INFORMATION

Felicia Ioana Sandulescu joined the National Centre for Development of Technical Education and Training (NCTVETD) team in May 2007 and over more than 10 years she coordinated the activity of this institution for the Bucharest-Ifov development region and she was the manager of a series of project with a deep impact on the development of technical and vocational education in Romania and especially of the dual vocational training system. The dual training system was introduced in Romania in 2017, following the implementation of the “National Authorities for Apprenticeship: Development of Apprenticeship Learning in IVET in Romania” project, throughout 01.11.2014-31.10.2016, based on the feasibility study "Terms of Reference for introducing dual system / apprenticeship in initial VET in Romania". Starting from April 2018, Felicia Sandulescu is Deputy Director of NCTVETD.

Felicia Sandulescu is the Romanian coordinator of Working Sub-group IV b). Vocational education and training, managing the activity undertaken within the cooperation agreement between Romania and Baden Württemberg, Germany.

She graduated the Department for Mathematics and IT within the University of Craiova and worked as a Mathematics teacher in 1997-2007; since graduation, she has drafted a number of learning materials for pupils, such as Mathematics handbooks, problem books, Mathematics leaflets.
