Experience of VET scenario workshop in Slovenia

Janez Damjan and Darko Mali

CEDEFOP Conference, Dec. 6th, 2022

The methodology broaden the field of dialogue

- The methodology itself played a very important role, as participants were able to participate equally in the debate
- The workshop has actually brought new ideas, and different views on challenges, individuals have stepped beyond their usual thinking

The important role of moderators

- The methodology is complex and challenging to understand all aspects, moderators must be well prepared
- The question we asked ourselves until the last day was: how to use 3 archetypical (baseline) scenarios?

Possible improvements

Some moderators' proposals:

- 2-day workshop
- As a follow-up workshop (one of the original proposals)
- Several consecutive workshops, e.g. every 2 weeks
- More time for final presentation and discussion by drawing conclusions

Instead of conclusions

- There was a lot of material produced, a lot of ideas, concrete initiatives, even idealistic ones.
- The material will be analysed and used in project activities, including similar workshops.
