Structure of Cedefop’s European skills and jobs survey

Previous labour market status
(WBL, VET, student, employed, short- or long-term unemployed)

Start of current job
(circumstances, motives, job mobility)

Current labour market status
(occupation, industry, job characteristics)

Skill development
(VET, motives and financing of training, methods of skill improvement)

Skill needs
(foundation, technical and generic skills; tasks in job; changing tasks, technologies / work methods)

Dynamic change in skill mismatch
(previous job → start of current job
start of job → current post)

Labour market outcomes
(wages, job insecurity, expected skill obsolescence, job satisfaction)
