LMI for All: Careers Database (UK)
widening access to high quality labour market information for careers

**KEY CHARACTERISTICS**
- An online data portal [www.lmiforall.org.uk](http://www.lmiforall.org.uk)
- Brings together existing national sources of high quality, reliable LMI
- Developed by IER (University of Warwick) & Pontydysgu
- Funded by Department for Education
- Data from official sources (e.g. ONS, UKCES, DWP, HESA, O*NET)
- Data on detailed occupations at 4-digits, range of indicators
- 2012 pilot: now full project status

**DRIVERS & OBJECTIVES**
To optimise access to, and use of, core national data sources that can be used by developers to create websites and applications to support individuals make better decisions about learning and work
Supports wider government open access agenda, encouraging use and re-use of data sets

**INNOVATIVENESS AND SUCCESS FACTORS**
- A single access point for multiple, high quality sources of LMI
- Dynamic and iterative development process since 2012 (ongoing)
- Open, free access allows software developers to extract LMI using the API to create apps or websites
- Career organisations can draw upon robust data to create a variety of useful, eye-catching LMI sources
- Career practitioner input required: applications now used by a wide range of careers UK stakeholders

**IDENTITY**

**What is LMI for All?**

**Examples of how LMI for All is being used**

**MAIN IMPACTS**
- Now used by over 25 organisations (some developments still in progress) – numbers increasing
- Careerometer (LMI for All widget) embedded in over 60 websites
