

Digital Skills and Jobs Coalition

Digital Skills and Jobs Coalition

Description

Focus area**KEY TRAINING POLICY MEASURE**

The initiative strives to develop concrete measures to bring digital skills and competences to all levels of the economy and society by connecting different stakeholders from the public and private sector. Moreover, the National Coalition pledges further coordinated action to identify and share best practices. Skills anticipation in the digital sector is made using stakeholder's inputs.

Methods

Methods

EXPERT PANELS

The relaunched Digital Skills and Jobs Coalition follows an action plan based on matchmaking events and conferences. The objective is to connect private and public stakeholders and establish a national agenda to improve digital skills.

OTHER

Initiatives of stakeholders, e.g. breakfast events involving different stakeholders to discuss about digital skills needs in the future

Use of skills intelligence

OTHER

The Digital Skills Coalition shares and promotes digital skills initiatives and encourages a matchmaking between these projects and actions that can range from granting training, financial support but also coaching, resources, rooms and, traineeship places, permitting these initiatives to grow and augment their outreach.

Stakeholders

Main responsible body

OTHER

The European Union and at the national level Digital Luxembourg, the Chambre de Commerce and the Chambre des Métiers

Other involved organisations

SOCIAL PARTNER: EMPLOYER ORGANISATION

Provide information on the demand for digital skills and organize/participate to events including other stakeholders

RESEARCH CENTRES, UNIVERSITIES

Provide information on the demand for digital skills and organize/participate to events including other stakeholders

OTHER

Schools, ministries, government, companies, social partners, non-profit organisations and education providers. Provide information on both the demand and the supply for digital skills and organize/participate to events including other stakeholders.

Sustainability

Success factors The number of members grew over time, it reached a large number of beneficiaries, it highlighted skills initiatives. At the beginning the initiative included only handful of trainings for selected audiences. Now it includes a comprehensive broad collection of trainings for everyone.

Barriers The community requires members participation on their own initiative.

Monitoring and evaluation The Commission monitors at the European level its memberships, the number of beneficiaries, the number of National Coalitions and the number of skills initiatives. Yes, an evaluation was conducted after three years. (https://digital-luxembourg.public.lu/sites/default/files/2021-02/DL_202...)

Updates No

NO

Effectiveness Throughout the mandate of the current Digital Skills and Jobs Coalition (DSJC) Governing Board, the Coalition has achieved growth, consolidation and digital skills for millions of Europeans.

Sustainability Yes, given its success and the growing importance of digital skills over time.

Young Talents

Jugend und Talente

Description

Focus area**KEY TRAINING POLICY MEASURE**

This project is geared to the young to demonstrate the attractiveness of employment and qualifications within the industry / banking sector. The goal is to inform and attract younger people towards employment in the industry. They provide information based on surveys among the industry / banking sector and the labour demand of the firms. It guides towards qualification providers and further information.

Link

NATIONAL PES

ADEM; EURES / Please describe each of their roles and how they are involved - e.g. are the involved in delivering the initiative, its design, providing supplementary funding, being part of an advisory board, etc... (max. 30 words for each institution).

CHAMBERS OF COMMERCE

Please describe each of their roles and how they are involved - e.g. are the involved in delivering the initiative, its design, providing supplementary funding, being part of an advisory board, etc...(max. 30 words for each institution).

Sustainability

Success factors	The initiative provides LMSI through their main instrument an employer survey. It reflects on the opportunities in various occupations and for various qualifications and informs about qualification possibilities (and further information on those institutions).
Barriers	As always in information provision, the information has to be received and used by the target group (youth, guidance counselors)
Monitoring and evaluation	There is no information about any monitoring or evaluation activities conducted.
Updates	There have been three rounds of reports / surveys (2018, 2019, 2020) <div style="border: 1px solid black; padding: 5px; width: fit-content; margin-top: 5px;">NO</div>
Effectiveness	Unknown
Sustainability	The instrument is based on the employers' unions survey & reporting. As such it seems to be sustainable.
